TUMOUR NEOANGIOGENESIS

New drugs and new diagnostic opportunities

13.00 Opening

Chairmen: A. Paradiso – G. Izzi

13.30 Mechanisms of tumour angiogenesis and antiangiogenic approaches
A. Vacca

14.00 Anti angiogenetic drugs: from biological target to clinical application
G. Ranieri

14.30 Imaging angiogenesis in clinical practice
O. Lucidarme

15.15 Ultrasounds contrast agent quantification of angiogenesis
L. Bridal

15.45 Prospective of new targeting ultrasound imaging of angiogenesis
M. Lamuraglia

16.15 Closing remarks
A. Paradiso

Speakers:

Lori Bridal

- UMPC Univ . Pierre et Marie Curie, Paris
- CNRS, UMR 7623, Laboratoire d'imagerie Paramétrique, Paris

Olivier Lucidarme

- UMPC Univ . Pierre et Marie Curie, Paris
- CNRS, UMR 7623, Laboratoire d'imagerie Paramétrique, Paris
- Service de Radiologie Polyvalente Diagnostique et Interventionnelle, - Hôpital de La Pitié-Salpêtrière, Paris

Gianni Izzi

- U.O. Radiologia
National Cancer Institute
"Giovanni Paolo II", Bari

Michele Lamuraglia

- UMPC Univ Pierre et Marie Curie, Paris
- CNRS, UMR 7623, Laboratoire d'imagerie Paramétrique, Paris
- Service de Radiologie Polyvalente Diagnostique et Interventionnelle Hôpital de La Pitié-Salpêtrière, Paris
- National Cancer Institute
"Giovanni Paolo II", Bari

Angelo Paradiso

- Direttore Scientifico
National Cancer Institute
"Giovanni Paolo II", Bari

Girolamo Ranieri

- U.O. Radiologia Interventistica
National Cancer Institute
"Giovanni Paolo II", Bari

Angelo Vacca

- Department of Internal Medicine and Clinical Oncology, Medical School, University of Bari
